

Safetica Intelligent Data Security Platform

Intelligent Data Security.
Powered by AI.

Audit-ready in weeks, not months!

Safetica delivers Intelligent Data Security through an AI-powered, cloud-native platform that gives security teams immediate visibility, reduces noise, and surfaces the risks that matter most.

With contextual intelligence, behavior analysis, and guided recommendations, teams can protect sensitive data, reduce insider risk, and achieve compliance, without increasing operational overhead.

Platform Plans

Safetica is available in three plans designed to scale with your organization:

STANDARD

Core data visibility and protection for growing teams.

PREMIUM

AI-powered, hybrid data security for scaling organizations.

ENTERPRISE

Advanced protection, compliance, and scalability for complex environments.
